SUMMARY

Junior Front-End Developer specializing in ReactJS and Next.js, eager to build responsive, user-friendly web applications. Skilled in working with APIs, integrating third-party services, and managing data flow efficiently. Proficient in modern CSS frameworks like TailwindCSS, component-based architecture, and performance optimization. Strong problem-solving skills with the ability to learn quickly and contribute effectively in team environments.

WORK EXPERIENCE

Technical Support – Front-End, Resala Organization

Jan 2023 - may 2023

- Provided technical support to students in React and JavaScript tracks.
 - Assisted in debugging and resolving issues related to HTML, CSS, JavaScript, and React.
 - Explained front-end concepts including components, hooks, routing, and API integration.
 - Reviewed student projects to ensure clean code, best practices, and responsive design.
 - Guided students in using Git, GitHub, and deployment platforms.
-

PROJECTS

Giving cycle — Giving Cycle: A simple online donation page [Live Demo](#)

- Developed a responsive donation platform using ReactJS.
- Integrated APIs for donations and user authentication.
- Styled with TailwindCSS and component-based architecture.
- Optimized performance and ensured smooth user interactions.

Blue Card — React E-Commerce Store [Live Demo](#)

- Built with React (Vite) and Tailwind CSS.
- Responsive multi-category product layout .
- Component-based architecture with interactive UI elements and promotional sections.

plants place — Plant Shop Landing Page [Live Demo](#)

- Built with HTML5, Tailwind CSS (utility-first), and Vanilla JS.
 - Fully responsive layout with custom typography (Jost, Lobster) and interactive components (product cards, testimonials, subscription forms).
 - Hamburger menu toggle, scroll-aware header, and scroll-to-top button implemented via JavaScript.
-

SKILLS

React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, REST APIs, Git, GitHub, Responsive Design.

EDUCATION

Bachelor of Computer Science

2020 – 2024

Bachelor's degree in Computer and Information Science – Menoufia University

- Relevant coursework includes Data Structures, Algorithms, Database Systems, Operating Systems, Software Engineering, and Web Development, covering core programming and development skills.

GPA: 2.9
