SUMMARY

Front-End Developer specializing in React.js and Next.js, with hands-on experience building responsive and scalable web applications. Proficient in JavaScript (ES6+), TypeScript, Redux, and React Query. Skilled in developing user-focused interfaces, integrating APIs, and writing clean, maintainable code with a strong focus on performance and usability.

WORK EXPERIENCE

Front-End Mentor – Resala Organization

Jan 2023 – May 2023

- Provided technical guidance to students in React.js and JavaScript fundamentals.
 - Reviewed front-end projects and offered feedback on clean architecture, scalability, and code quality.
 - Explained core front-end concepts including components, hooks, routing, and API integration.
 - Assisted in debugging applications and improving performance and usability.
 - Supported team collaboration and version control workflows using Git and GitHub.
-

PROJECTS

Connecto : Social Media Application

- Developed a full-stack social media platform with post management (CRUD), comments, and authentication.
- Built RESTful APIs and integrated them with a React frontend using React Query for efficient data fetching.
- Implemented responsive UI with Tailwind CSS and optimized performance for smooth user experience.
- Added error handling, loading states, and user feedback mechanisms.
- Technologies: React, Tailwind CSS, React Query, API Integration

COURSES

Mar 2024 – Aug 2024

Frontend Development Using React JS, Next JS
Route Academy

SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript
Styling: Tailwind CSS, CSS3, HTML5
State Management: Redux Toolkit, React Query
Tools: Git, GitHub, Vite, npm
Other: REST APIs, Responsive Design, Clean Code, Performance Optimization

EDUCATION

Bachelor of Computer and Information Science

2020 – 2024

Menoufia University

- Relevant Coursework: Data Structures, Algorithms, Database Systems, Operating Systems, Software Engineering, Web Development

GPA: 2.9
