PROFESSIONAL SUMMARY

Frontend Developer with 2+ years of experience building scalable React.js and Next.js web applications. Skilled in TypeScript, REST API integration, NextAuth.js authentication, and UI development with Tailwind CSS and Shadcn/UI. Delivered 5+ production applications and mentored 10+ students, with a strong focus on performance, accessibility, and clean code.

TECHNICAL SKILLS

Frontend: React.js, Next.js 16, JavaScript (ES6+), TypeScript, HTML5, CSS3

Styling: Tailwind CSS v4, Shadcn/UI, Radix UI, Framer Motion

State & Data: Redux Toolkit, TanStack React Query, Axios, REST API Integration

Auth & Forms: NextAuth.js (JWT), React Hook Form, Zod, Protected Routes, Session Management

Performance & SEO: Core Web Vitals, SSR, SSG, Lazy Loading, Code Splitting, Accessibility (a11y)

Tools: Git, GitHub, Vite, Vercel, npm, Webpack, ESLint, TypeScript Compiler, Prettier

Backend Basics: Node.js, Express.js, MongoDB, Mongoose, REST APIs

Soft Skills: Team Collaboration, Technical Mentoring, Problem Solving, Attention to Detail, Time Management, Adaptability, Communication

PROFESSIONAL EXPERIENCE

Activation Team Supervisor & Frontend Developer · [Brand Aid Marketing Solutions](#) Jun 2024 – Present

- Built 5+ responsive campaign landing pages with React.js and Tailwind CSS, reducing campaign setup time by ~30%.
- Delivered cross-browser-compatible UIs across 3+ browsers, eliminating layout issues and ensuring zero campaign downtime.
- Collaborated with designers and marketing managers to deliver pixel-accurate, on-brand interfaces meeting tight deadlines.
- Maintained 3+ live web assets post-launch — resolved bugs within 24 hours and shipped feature updates on demand.

Frontend Mentor (Volunteer) · [Resala Organization](#)

Jan 2023 – May 2023

- Mentored 10+ students in React.js and JavaScript (ES6+) — hooks, routing, component architecture, and REST API integration — achieving 90% project completion rate.
- Reviewed student codebases with structured feedback on scalability and code quality; facilitated 20+ debugging sessions and introduced Git/GitHub workflows.

SELECTED PROJECTS

Shopistic — Full-Stack E-Commerce · Next.js 16 · TypeScript

- Built a production e-commerce platform with Next.js 16 and React 19 — product browsing, cart, checkout, order tracking, and NextAuth.js JWT authentication with protected routes.
- Integrated REST APIs via Axios with React Hook Form + Zod validation; deployed on Vercel achieving Lighthouse 90+ and sub-2s load times.

Stack: Next.js 16 · React 19 · TypeScript · Tailwind CSS v4 · NextAuth.js · Axios · React Hook Form · Zod · Shadcn UI · Radix UI · Swiper · Vercel

Brand Aid Event Registration System — Full-Stack · MERN Stack

- Engineered end-to-end registration platform managing 100+ participants — admin dashboard, real-time seat monitoring, search, and RESTful backend APIs with Express.js and Mongoose.

Stack: React.js · Tailwind CSS · Framer Motion · Node.js · Express.js · MongoDB · Mongoose · Vite

Shop Vista — *E-Commerce Frontend* · [React.js](#)

- Optimized server-state with TanStack React Query, cutting redundant API calls by ~40%; built type-safe validated forms with React Hook Form and Zod.

Stack: [React.js](#) · [Tailwind CSS](#) · [TanStack React Query](#) · [React Hook Form](#) · [Zod](#) · [React Router DOM](#) · [Framer Motion](#)

Connecto — *Social Media Frontend* · [React.js](#)

- Delivered social media app with Redux Toolkit global state, React Query + Axios API integration, authentication flow, loading states, and error handling.

Stack: [React.js](#) · [Tailwind CSS](#) · [React Query](#) · [Redux Toolkit](#) · [Axios](#) · [React Hook Form](#) · [Zod](#) · [Framer Motion](#)

EDUCATION & TRAINING

B.Sc. Computer and Information Science · [Menoufia University](#)

2020 – 2024

Foundation in software engineering, algorithms, data structures, databases, and web technologies.

Frontend Development Diploma — React.js & Next.js · [Route Academy](#)

Mar – Aug 2024

Intensive 6-month program: React.js, Next.js, TypeScript, state management, REST API integration, and Vercel deployment.
